Cuff Links with Precious Stones

The construction of these cuff links is amazingly simple. The combination of the elegant gem bar and the plump cubic setting of gold is quite striking. The original, dating from the 1930s, has a bar of ebony instead of the gem. We offer these cuff links in different versions: in white or bright gold, with turquoise, onyx, coral or lapis-lazuli.

L: .78"
Au (2) 21g 18 Karat (750)
Stone: 20x7x7mm
Edition of 50
