Tea Glass Holder - Hans Przyrembel, 1925

With the help of some photos and additional information from the widow of Hans Przyrembel, we have reconstructed this simple and practical tea glass holder. The glass inset (a commercial tea glass, still produced by the Jenaer Glas) is held by silver wires and an ebony holder – the ebony holder to prevent the heat of the liquid to spread.

H: 3.12"
Dia: 2.73"
Ar: 38 g (925)
Edition of 600
