Art-Deco Cocktail Shaker - Sweden, 1937

From the original, which is in our possession, we have only been able to identify the producer G.A.B. (Guldsmedsaktiebolaget), in Stockholm. The single piece of information about the designer, Folke Arstrom, we found in the book "Svenskt Silver". The shaker is completely worked in silver, the top, as that of the original is made of turned hard synthetic material. Year of design: 1937.
